Punjabi :	Proficiency Level

Skills Summary

- **Languages:** JavaScript, TypeScript, Java
- **Frameworks:** Angular, React, Node.js, Spring
- **Tools:** Git, GitHub, MySQL, MongoDB
- **Platforms:** Visual Studio Code, Eclipse, IntelliJ IDEA
- **Operating Systems:** Windows, Linux, MacOS
- **Software Development Methodologies:** SDLC, Agile
- **Soft Skills:** Problem-Solving, Communication, Collaboration

Objective

I am an ambitious and dedicated web application developer eager to begin my professional career in the tech industry with a strong foundation in web technologies and modern development practices, I am passionate about building innovative, scalable solutions. I specialize in front-end and back-end development, utilizing frameworks like Angular, and tools like Node.js and Java. My learning journey has equipped me with comprehensive knowledge of the software development lifecycle, responsive design, and collaborative workflows. In addition to my technical skills, I bring excellent communication, adaptability, and problem-solving abilities to every team. Driven by curiosity, I continually seek new challenges to grow and contribute to impactful projects.

Experiencia

Private English tutor Madrid - Spain	March 2020- Present
Private Math tutor Madrid - Spain	August 2021 - July 2022
Hungury pizza - **Chef** Madrid- Spain	August 2020 - Octuber 2020
We Taxi - **Taxista** Madrid- Spain	November 2022 - August 2023

Projects

Calculator Web Application
- Developed a functional calculator using JavaScript for logic.
- Designed a responsive user interface with HTML and CSS.

NBA Players Webpage
- Created a dynamic webpage that fetches JSON data using JavaScript.
- Displayed player details with structured styling in HTML and CSS.

Global Regions Explorer
- Built a web application that retrieves and displays country-specific data.
- Integrated the REST Countries API to allow users to explore nations by continent.
- Used JavaScript for API handling and interactive UI elements.
- Styled and structured the webpage using HTML and CSS.

Technical skills

- Programming Languages: Proficient in JavaScript, TypeScript, and Java.
- Web Development: Hands-on experience with HTML, CSS, and modern front-end frameworks (e.g., Angular) and libraries like Bootstrap for responsive and efficient UI design.
- Back-End Development: Understanding of server-side development with Node.js or Java-based frameworks (e.g., Spring).
- Database Management: Familiarity with relational (e.g., MySQL) and NoSQL databases (e.g., MongoDB).
- Version Control: Proficient in Git and GitHub for source code management and collaboration.
- Operating Systems: Proficient in working with Windows, Linux, and MacOS.
- Responsive Design: Ability to create mobile-friendly and cross-platform web applications.
- Software Development Life Cycle: Understanding of Agile methodologies.
